WORK EXPERIENCE

Frontend Developer

[SheepCRM](#)

February 2024 - August 2024

- Collaborated with the SheepCRM team to maintain and enhance a robust codebase serving over **700+ users**.
- Utilized **React** for component and state management, leveraging **React Context** to streamline data flow and improve application performance.
- Implemented and maintained unit and integration tests, **ensuring 95%+ test coverage across the frontend codebase**, resulting in a significant reduction in post-deployment bugs.
- Developed the “**Events Calendar**” for visual event management and the “**Help Launcher Guide**” for context-aware assistance, intercom support, and micro-service monitoring, enhancing user experience and engagement.

Frontend Developer

[Cloud Employee LTD](#)

November 2021 - August 2024

- Partnered with CloudEmployee's CTO and coordinated with Storma's five Backend Developers to develop an internal system. Leveraged **Vue.js**, **Nuxt.js**, **TypeScript**, and **TailwindCSS** to architect and successfully complete the project **four days ahead** of schedule.

Senior Frontend Engineer

[SupaPass](#)

November 2021 - July 2023

- Enhanced collaboration with the SupaPass Team, driving product development efficiency up by 3 days. Leveraged **React**, **TypeScript**, **Next.js**, **GraphQL**, and **TailwindCSS** to streamline feature rollout, reducing turnaround time by an **average of three days**.
- Delivered impactful consulting that revamped the web application's user interface, resulting in a **30% increase in user experience** metrics.

Frontend Engineer

[CODY Web Development Inc.](#)

September 2020 - October 2021

- Led the development of Arise's employee monitoring platform using **React.js** and **Chart.js**, delivering it **two weeks early** and boosting user engagement by **25%**.
- Spearheaded BizMake's canvas/whiteboard tool with **Vue.js** and **SASS**, focusing on team collaboration.
- Enhanced codebase performance by **30%** through targeted optimizations in collaboration with Japanese backend teams.

Frontend Web Developer

[BPOSeats.com](#)

April 2019 - August 2020

- Enhanced UI/UX by leading design initiatives with the CEO and project managers, creating wireframes and templates using **Vue.js** and **SASS**.
- Prepared design mock-ups in Figma, reducing turnaround time by **50%** from **two weeks to one**.

EDUCATION

Internet and Web Technology

[Langara College](#)

September 2024 - Present

Bachelor of Science in Computer Science

[University of San Carlos](#)

June 2015 - December 2018

PROJECTS

- **Brightspot Dashboard Project** - React dashboard app displaying user info, a to-do list, and local weather using Open Weather API. (Feb 2024)
- **Mini CMS Project** - CMS Tool focused solely towards real-estate centered websites, advised using **React**, **TypeScript**, and **TailwindCSS** (Oct 2023).
- **KobeMichael.works (v1)** - A personal online web portfolio (**React**, **Next.js**, **TailwindCSS**). (Nov 2023)
